## ENTERPRISE APPLICATION MANAGER

Belgrade

We are looking for a dedicated application manager to join our IT department and take over the coordination of our enterprise applications.

### YOUR AGENDA:

- Managing an enterprise application portfolio
- Coordinating with business users regarding the ERP products
- Analyses and thorough research of client's needs and requirements
- Addressing the various needs, concerns, expectations of stakeholder groups in planning and executing projects, meeting project requirements and creating project deliverables
- Building a strong technical culture around our business systems
- Management of the entire cycle of solving needs and problems (requirement definition, solution, testing, user confirmation)
- Partnering with business stakeholders, vendors, and IT management in Serbia and Head Office
- Intensive communication, collaboration and change management in an international environment

### YOUR QUALIFICATIONS:

- Relevant University degree
- Minimum 5 years of work experience in enterprise applications
- Advanced knowledge in ERP system(s) (preferable Oracle E-Business Suite or Microsoft Dynamics)
- Experience in ERP implementation projects
- Ability to analyze, define, implement, change and document processes and present them towards stakeholders
- Good communication skills, fluent in English and moderation skills
- Ability to understand and manage user needs
- Ability to nurture a relationship with the user
- Ability to communicate and understand any problems encountered by users
- Initiative, persuasiveness, assertiveness and enthusiasm

### WHAT WE OFFER:

- Work in an international environment
- Opportunity to work on one of the most prestigious projects in our region
- Outstanding opportunities for career development

If you are confident that you meet the above requirements and you are interested in developing your career in a dynamic international organization, please send your application.

Please note that only short-listed candidates will be contacted.
